Re: Transmittal of Analytical Data Packages
RI/FS for McIntosh Plant Site
Olin Chemicals McIntosh, Alabama
WCC File 90B449C
Document Control Number WCC 227

Dear Mr. Lucas:

Per instructions from Mr. Jim Brown of Olin, Woodward-Clyde Consultants is transmitting to you the available CLP data packages for the samples that you identified in your November 8, 1991 correspondence to Olin. As you requested, the data packages for the blank and spike samples are also included.

Please note that the data packages for samples SGDD01 and SGDD06, collected on August 21, 1991 are not included. These samples were delivered late by Federal Express and the sample temperatures upon receipt by the laboratory were not acceptable. The areas were resampled on August 28, 1991 and the data packages for the second set of samples are included.

EPA collected the samples labeled RS01 through RS05. Olin collected splits at each of these sample locations, but decided to analyze only RS02. The CLP data package for RS02 is included with this transmittal.

We have not received the full data package for the inorganic analyses of the sample from monitoring well E1. This package will be transmitted to you after it is received from the laboratory.

The data packages that we are transmitting are copies of the packages that were initially received from the laboratory. We are in the process of validating the data in conformance with Functional Guidelines. We have directed the laboratory to resubmit portions of the data packages based on the data validation. The types of errors that the laboratory has been asked to correct in their resubmittals include incorrect sample IDs,

Mr. Kenneth A. Lucas - 90B449C
United States Environmental Protection Agency

incorrect use of date qualifiers, and incorrect CLP forms. Therefore, the final data packages will vary from what is being transmitted herein.

If you have any questions regarding this transmittal please contact Mr. Jim Brown of Olin.

Very truly yours,

Charlie E. Westerman

William A. Beal
